CLUB CALL  
VE3BSQ

QUINTE QRM

REPEATER VE3KBR  
146.400-147.000

DATE OF MEETING 13 OCT. 1976 WED.

TIME 7 PM.

PLACE LOYALIST COLLEGE, KENTE BUILDING, ROOM 3L10  
AT 8 PM.

PROGRAM - 7 PM at CJBQ - A M tower site  
8 PM at Loyalist. Please be on time at the  
Site as Doug Vanderwater has to be at Loyalist about 8 PM  
to catch his nite school class.

Howard VE3RL, who looked after CJBQ for Doug  
while he had a 2 week holiday says the new shack & TX is  
really a worthwhile place to see. Take the townline Road  
or Belleville Road from the top of Mountainview Hill to  
Wellington. About 14 miles from Belleville you will see  
a large quonset type chicken barn on the left and just past  
the barn a road to the right. Take this about 4 miles to  
the site. You will see the towers at about 2 miles up  
this road. Keep on going until you reach them. From  
Trenton come through Hillier and turn left. From Wellington  
the turn-off is about 4 miles down the Belleville Road.  
To take advantage of the full rundown on the equipment be  
on hand at 7 PM sharp.

- - - - -

On Tuesday 21 Sept. the new solid state receiver & control  
was installed at the Repeater Site. Eric VE3GSI and Glen  
VE3CJG helped to make it a relatively quick job. It was  
all in & working in about 3 hours. About 75 lbs. of equip-  
ment was removed and a small 3 lb. box took it's Place.  
Evident changes are as follows:-

1. A delay of 2 seconds on drop-off (was 1 sec.).
2. Time out is now 5 Min. (was about 3).
3. Reset is now accomplished by the received carrier &  
not from drop-off of the repeater. This means that you do  
not have to wait for the tail as you did before.
4. Sensitivity is about 5 db better.
5. Audio quality is greatly improved with less deviation  
& we can now accommodate narrow band rigs much better.
6. The identifier now completes its cycle before drop-  
off.

The Sunday Nite 2 meter net will resume operation on 3 Oct.  
at 7 PM and every Sunday thereafter. Tim VE3HCM will be  
net control as usual.

- - - - -

Tim arrived back from Calgary where he spent the summer  
working & reports that Henry VE6CEC is working for the  
summer in Yellowknife. The Sked with Henry at 2.30 Sat.  
afternoon on 14135 will continue this fall & winter.

Doug Vanderwater VE3BLY went on holidays for 2 weeks in  
August and Howard VE3RL took over at CJBQ. Doug reports

that Howard tried to fire the TX up on 160.

Bob Brain VE3GTD has been appointed a delegate by R.S.O. replacing Howard VE3RL who served a 2 year stint.

Bert VE3AQI will be going to the RSO Convention in October - that makes 9 from the QARC that we know of.

Anybody got a couple of WD11 tubes?? - Howard VE3RL is looking for them

Sideband on 2 meters is the big thing these days. Active are VE3RL, VE3CJG, VE3DPP, VE3IVA, VE3FJJ, VE3BAQ, VE3DVB, VE3FKT. VE3GSI

Harry VE3FJJ has his advanced.

The Cook-out at Bob's (VE3GTD) was a GREAT SUCCESS. 35-40 people attended. The salads & deserts were supplied by SANDRA VE3HON and her committee of XYL's. The BAR did a roaring business and the barbeques were kept smoking all evening. Looks like this is going to be an annual affair if we can talk BOB into it. They tell me that BARRY won a \$2.00 bet by swimming across the Moira behind bob's house.

RICK will be changing the Auto Patch repeater to standard 600KC spacing in about 2 months, the frequency will be 146.430 TX and 147.030 RX. The above refers to the frequency of the Crystals you will require.

HOWARD says the new IC22S comes with a bushel of diodes in a bag. You pop them into the matrix board and presto!! 23 channels of your choice. It also works Hi in low out with the flick of your Bic. Can be programed with an accessory Kit for any spacing.

A fun Auction & Flea Market will be held on a date to be announced in the November Bulletin. Place - the home of Mrs. VI ELSE 30 Northwood Crescent. Ham gear, parts, test equipment, hardware from the estate of the late Stan Else VE3ATJ. Everything to be sold - no reasonable offer refused.

For the November Program we hope to have Howard Booth VE3BEE, who will tell us all about his experiments with Solar Heating. Howard has a system working which is connected to his hot water tank. He builds up solar panels and has developed a workable system.

December is elections & a nominating committee will be appointed at the Nov. meeting.

Harold VE3NW is the latest convert to 2 meter FM.

New members Willis McMullen VE3HZZ and Don Newlands VE3HGN.

Beginners and Advanced courses are now underway at Loyalist. JERRY VE3HBR is the man to see.

The boys in Syracuse are on fast scan TV on 444.6.  
we are trying to talk them into changing to the generally  
accepted standard used on our side of the lake - -  
439.25.

Don't forget 7 PM sharp at the CJBQ - TX site & Loyalist  
at 8 for the October meeting!

See you all at the convention in Toronto 22 - 23 October.

EDITORIAL

The recent form letter from the D.O.C. is a good  
example of the thinking going on in certain Ham circles and  
in Ottawa about Amateur Radio.

Some people would like to see changes that they  
believe would increase the number of Amateurs & thereby  
give us a stronger voice in decision making on matters  
affecting frequencies and privileges. On paper this looks  
like a good idea.

Maybe I am not very progressive or up-to-date, but I  
don't go along with the modern theory of economists,  
governments and the business community when they stress  
growth as the only hardstick of success & progress.

I like to think that quality is more important than  
quantity. I think also, that we are being led down the  
garden path by some of our organisations that pretend to  
represent us on various levels.

Of all the organisations that we have these days,  
only ARRL seems to try to keep the ship on an even keel.  
Call them square, conservative, old fashioned or what you  
will, after 60 years of looking after our interests, (and  
without them we would not be here) they do not make rash  
decisions.

The more Amateur Radio organisations you belong to  
the better, they all deserve support starting with your  
local club. But whatever you do, support ARRL. 60 years  
from today they will still be there looking after your  
interests, as they have been doing for the past 60  
years.

VE3RL.

STOP PRESS!!!!!!

Congrats. to DOUG VE3DPP & KYL on the arrival of new SON,  
MOTHER & HARMONIC doing fine!

Re: ELECTION of RSO DIRECTORS

To all QARC Members:

Following in the able footsteps of Howard VE3RL, I have been appointed RSO Delegate for the Kingston District for a two-year period, 1976-1978. One of my duties is to elect seven (7) Directors at the RSO Convention.

The RSO Nominating Committee is proposing the following Candidates for election to the RSO Board of Directors. Under your direction it will be my pleasure to vote for or against each of these seven nominees. Further it is understood that additional candidates for directorships may be nominated by any three delegates. This also you must keep in mind when you instruct me as to how you wish me to vote. I look forward to receiving my instructions from the Quinte Amateur Radio Club when next it meets on Wednesday, October 13th, 1976.

In accordance with the Bylaws governing the elections of Directors of the Radio Society of Ontario, the Nominating Committee proposes the following slate:

Tom Atkins, VE3CDM (presently a Director)

Tom is currently First Vice-President of RSO and has been a Director for the past five years. Tom also served as a Metro Toronto delegate of RSO, as Chairman of Public Relations, and as Associate Editor of The Ontario Amateur. For two years he was Ontario Director for CARF. Tom is Vice-President and Toronto Manager of Standard Broadcast Sales Ltd. With his wife and two daughters he lives in Willowdale.

Les Brownlee, VE3BLZ (presently a Director)

Les received his license in 1948. He has been an RSO Delegate since 1965 and has been in attendance regularly at all meetings of delegates since that time. He operated the Laurentian Net from 1961 to 1972. He is active on all bands from 80 to 2 meters. He is currently a Director of RSO. Les retired on early pension in 1972. He lives at Whitefish, Ontario in the Sault Ste. Marie District.

Bruce Carveth, VE3BC (presently a Director)

He is an RSO delegate for Metro Toronto, a Director of RSO, and Chairman of the Communications Committee of RSO. He also served as Vice-President. He organized the ONTARS net on 3755kHz and has been manager of the net since its inception. He is a white cane sponsor and a member of ARRL. He is active on all bands from 80 to 10 meters. Bruce is a real estate broker with the Royal Trust Co. in Toronto and a Fellow of the Real Estate Institute of Canada. He lives with his wife in Toronto.

Tom McKee, VE3ETM (presently a Director)

He has been President of the Windsor Amateur Radio Club for four terms and now is in his fifth and has served twice as Field Day Co-Ordinator. He was an RSO Delegate for 4 years in the 1960's as well as currently. He is also a Director of RSO. He has been a member of ARRL since 1958. He sponsors two white caners. Since 1943 Tom has been a Registered Dental Technician for McKee Laboratories in Windsor. Currently he is Manager of the business. Tom lives in Windsor.

Marvin Nash, VE3FON (presently a Director)

He is a Director of RSO and a Delegate for the Metro Toronto District. He is currently 2nd Vice-President, a Director and Chairman of Public Relations, Awards and the Interference Committees. He is trustee for the call VE3RSO. He was Treasurer of the Ontario Science Centre ARC, and is a member of West Side Radio Club of Toronto and the Toronto FM Communications Society. Marv is self-employed as an optometrist. He lives in Willowdale with his wife and three children.

Croft Taylor, VE3OR

He is President of the Pioneer Amateur Radio Club of Eastern Ontario, member of QCWA, ARRL and CARTG, and a Director of CARF. He initiated a repair program for obsolete teletype machines for allocation to the Canadian Hearing Society to enable deaf-mutes to communicate over normal telephone lines. Croft directs the work of Senior Engineers in the Trans Canada Telephone System for Network Design of all military communications requirements in Canada and for civilian digital network facility design for TOTS. He lives in Ottawa.

Roy Tuttle, VE3BNV

Roy has been an RSO delegate for Toronto Metro since 1972. He is Publicity Chairman for the ARRL National Convention to be held in Toronto 1977. Roy is a member of Scarboro ARC, ARRL, CNIB ARC, CARF, Masonic Lodge and since 1953, a charter member of Wilmar Heights United Church. Thelma his wife is active in both Trilliums and CLARA. Since becoming hams they have travelled to England, the Maritimes and B.C. as well as ARRL conventions in Calgary and Denver, Colorado. Roy says he has been in the "up and down business" for over 20 years. He sells zippers.

RRB:vr

73's, Bob Brain VE3 GTD  
Delegate  
Kingston District, RSO.
